It gives me immense pleasure to present you our 8th annual report of “The Salvation of Nations Ministry” for financial year 2020-21. In past year, most of our work focused on COVID-19 relief work & awareness programs in Delhi & Uttar Pradesh. Our programs continued to reach out Men/Women’s/ adolescence boys & girls, especially from the marginalized and poorest of poor communities in the remotest region, to make positive social impact in their lives and livelihoods. We work in one of the huge slums of Delhi to directly reach out to 40000 thousand people through health, education, vocational training, and awareness programs. Among of whom 15000 thousands were women’s and girls’. Which describing the progress made in the various fields of holistic development of social work like: **Free-Education, Adult Literacy, Vocational training, Youth development programs, Women & Children’s developments, Health & hygiene, Awareness & advocacy programs, Social, Cultural programs and Disaster & Relief work** etc.

Lasting change can only become a reality when underlying causes of poverty and social exclusion are addressed in holistic manner. TSNM, India worked in the past year around the poor and downtrodden who all are beneficiaries on the ground, it is an attempt to bring about more meaningful and long-term change. Community-based collective action which encourage marginalized people to hold the authorities responsible and accountable to deliver services, are reaping a rich dividend. Our programs have touch the lives of thousands of poor, needy & marginalized people specially women’s and children, bringing about a change which is remarkable. India’s growth has also been accompanied with a fair share of challenges lopsided power relations driven by caste and class boundaries, patriarchy, and disparate economic opportunities, have added fuel to the fire of poverty and social injustice. To be able to bring about the desirable transformation in the communities we serve, TSNM, India has developed an open and transparent organizational culture, based on core values of respect, integrity, commitment, and excellence. Significant investments have been made in tapping the potential and managing the talent, which ensure efficiency and accountability in the work we do.

Several milestones were achieved during the year and the report outlines some of our key achievement and how we got there. We have also tinted some game changers which have made a significant difference to our work and its impact in the communities.

I would like to take this opportunity to thanks our partners and donors for their strong and consistent support, without which we would not have been able to achieve so much. I would especially like to thank our staff, volunteers for their contribution, particularly when we needed to find solution to development challenge.
